RWN Photo Album

Radio Station Need

I want the ability to show photos of various promotional events that we sponsor throughout the year.

RWN Solution

We provide a web based photo album where you can upload you photos into an image library for use and display on your website.

RWN Photo Album Product Description

Using the RWN Photo Album product, you can easily upload and display your pictures on your website. Uploading a picture is as easy as selecting the photo gallery that you want to use, browsing for the picture on your PC and naming it. On your website, pictures that are associated with an active photo gallery will be displayed as thumbnails. Website visitors can see the full sized image by clicking on the thumbnail image.

Once an image has been uploaded into the image library, it will remain available for use on your website, in emails or in other photo galleries until deleted.

Typical uses of Photo Album

- Pictures of promotional events.
- Product pictures.
- Promotional pictures.
- Employee and staff pictures.
